

DISPLATE METAL POSTERS MOUNTING INSTRUCTIONS

**! READ THE INSTRUCTIONS CAREFULLY !
AND FOLLOW THEM STEP BY STEP !**

- 1.**
Every Displate has one magnet added to mount it on smooth and flat surfaces

- 3.**
Take the magnet from the back of a poster and remove the protective foil, exposing the glue.

- 2.**
The surface should be clean, dry and degreased, so clean it with a wet cloth and wait until it surface dries up.

- 4.**
Stick the magnet with the glued side to the cleaned surface and press firmly with your hand for about 20 seconds.

- 5.**
Once confirmed, by trying to take the Displate off, that the poster is held strongly and will not fall, please place it so that the magnet is at the centre of the metal plate.

6.

Thanks to this magnet mounting system you can easily rearrange the composition of your Displates.

Enjoy your Displate!

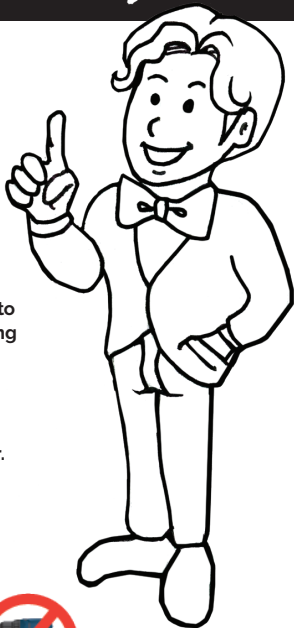

NOTICE

Since the magnets do not stick to the rugged surfaces, it is really important to prepare the surface properly. The smoother the surface, the better the magnet sticks to it. That is why, before mounting your poster, even the surface appropriately.

Avoid strong sunlight and direct contact with water.

Not suitable for children under the age 3!
